An IT graduate with a passion for transforming ideas into sleek, user-friendly digital experiences. Specializing in Flutter and asp.net core development, I thrive on building cross-platform mobile apps and responsive web interfaces that blend functionality with aesthetic appeal. With a strong foundation in software development and a knack for UI/UX design, I deliver solutions that are both technically robust and visually engaging. My goal is to craft seamless user experiences that make a lasting impact.

Relevant Experience

Mobile Service Ordering App | Graduation Project (Top Care Company) — Apr 2023 – Jan 2024

- Developed cross-platform app in **Flutter** with a web-based admin panel.
- Integrated **Firebase Firestore** for scalable order management and **Firebase Auth** for secure access.
- Enabled customers to request, modify, and cancel services in real time.

School Management System | Personal Project — Dec 2024 – Feb 2025

- Engineered a robust, full-stack web application using ASP.NET Core Web API and SQL Server with Entity Framework Core to centralize all school administration functions.
- Secured the system by designing and implementing role-based portals (Admin, Teacher, Student) featuring JWT authentication, ensuring data integrity and authorization across different user tiers.
- Improved operational efficiency by implementing real-time grade calculations and automated enrollment workflows, reducing manual processing time and enhancing data accuracy for administrators.

Eitmed for Finance — Dec 2025 – Current

- E'timad Finance Company – Finance Systems & Technical Support Officer.
- Operated and managed finance systems, ensuring accuracy and efficiency of daily financial operations.
- Monitored financing processes and resolved operational and system-related issues promptly.
- Provided technical support to system users and troubleshooted finance system problems.
- Coordinated with technical and administrative teams to ensure system stability and uninterrupted service.
- Contributed to the development and enhancement of finance systems by proposing technical improvements.
- Participated in testing system updates and new features to ensure alignment with business requirements.
- Improved system performance and reliability to support organizational operational goals.

Additional Projects

Real-Time Chat App, Activity Finder Web App, and more available on GitHub.

Education

BSc in Information Technology – The Future University,
Sudan (2018 – 2024)

Full-Stack Bootcamp (ASP.NET Core MVC) – Coderz for Software & Training,
Amman, Jordan (Completed 160hrs)

Technical Skills

Languages & Frameworks: C#, ASP.NET Core, Flutter, Dart, JavaScript

Databases: SQL Server, Firebase Firestore

Frontend: HTML, CSS, Bootstrap

Tools: Git/GitHub, Visual Studio, Android Studio, Docker

Soft Skills

Problem-Solving • Adaptability • Communication • Project Management • Technical Troubleshooting
